1958

DEDICATED TO THE FAITHFUL OFFICERS
OF THE TOWN OF AMHERST, NEW HAMPSHIRE

EZRA DOUGLAS EDWARDS

Born in Beverly, Mass. April 23, 1889
died January 8, 1958

Served as Fire Ward and Fire Chief

ARTHUR LESLIE UNDERWOOD

Born in Stow, Mass. May 9, 1897
Died June 21, 1958

Served as Chairman of the War Memorial Book
As Zoning Official 1947-1958
Member of the School Board 1940-1948
Selectman 1948-1953

He Was a Friend

*He made his friends by being one,
And on his friendship men relied;
In every deed that need be done
He made the Golden Rule his guide
His friendly presence brought a cheer
That made the day seem wondrous fair;
His daily living so sincere
Made others love him everywhere;
He was a friend.*

*Just yonder on the star-kissed shore
He carries on in nobler way
Though we can see his face no more,
Thanks for his friendship for a day,
If on his tomb I could indite
The epitaph I have in mind,
One phrase is all that I would write,
The truest that I could find;
He was a friend.*

From an old scrapbook.

not later than April 15th.

Obtain a permit before burning out of doors. Any
kind of an outside fire is subject to a \$200 fine if started
without a permit.

Every new building, sign or new business requires
a permit.

TOWN WARRANT

The State of New Hampshire

To the Inhabitants of the Town of Amherst in the County of Hillsboro in said State, qualified to vote in Town Affairs.

Polls to open at 1:00 p. m. and close at 7:00 p. m.

You are hereby notified to meet at Town Hall in said Amherst on Tuesday, the tenth day of March next, at eight of the clock in the afternoon to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To see if the Town will vote to give the Selectmen and the Town Treasurer authority to borrow money in anticipation of taxes.
4. To see if the Town will vote to allow a discount of $1\frac{1}{2}\%$ on 1959 property taxes paid by May 1st, 1959. Any person paying on their 1959 property tax an amount equal to 80% of their 1958 property tax to be allowed $1\frac{1}{2}\%$ discount on their 1959 property tax bill if paid in full by December 1, 1959.
5. To see if the Town will vote to raise and appropriate the sum of \$100.00 to purchase advertising space in the 1960 Guide of the Merrimack Valley Region, or act in relation thereto.
6. To see if the Town will vote to raise and appropriate \$1000.00 to continue the plan started in 1956 for the improvement of roads.
7. To see if the Town will vote to raise and

appropriate \$500.00 to repair and paint the fence around the common.

8. To see if the Town will vote to raise and appropriate the sum of \$1000.00 to be used by the Selectmen to continue the repair and renovation of the Town Hall and to have the Moderator appoint a committee to work with the Selectmen to determine the work to be done.

9. To see if the Town will vote to raise and appropriate \$600.00 to purchase ladders and tires for the Fire Department trucks and paint the Fire Station.

10. To see if the Town will vote to raise and appropriate \$1000.00 to establish a Capital Reserve fund for the ultimate purchase of a fire truck when the 1945 truck is no longer suitable for use.

11. To see if the Town will vote to raise and appropriate \$750.00 to purchase a blade plow to replace the "V" plow purchased in 1941 and authorize the Selectmen to sell the "V" plow and wing that are no longer suitable for use.

12. To see if the Town will vote to accept a road running from State Highway Route No. 101-A north-erly towards the shore of Stump Pond over land now owned by L. H. Truell. Said land to be conveyed by deed to the Town of Amherst.

This road is approximately 1000 feet in length with a right of way forty-five (45) feet in width.

The road affords access to three permanent homes now, with a potential of nine when the remaining lots are occupied. (By Petition)

13. To see if the Town will vote to require that the following conditions be met before any action is taken towards the acceptance of new roads.

A. The Town to have a clear title to the land with a minimum width of forty-five (45) feet.

B. The prepared road to be constructed to specifications acceptable to the Road Agent before being accepted by the Town.

14. A. To see if the Town will vote to sell and convey to the Amherst Congregational Church, the belfry, tower, steeple and such interest as the Town may have in the structure.

B. To see if the Town will vote to lease to the Amherst Congregational Church for a term of 99 years, the belfry, tower, steeple and such other interest as the Town may have in the structure, in consideration that the Amherst Congregational Church assume the obligation to maintain and repair the property and to save the Town harmless from loss on account of any claims for personal injury or otherwise on account thereof.

In the event that affirmative action is taken on the article, it is recognized that corresponding acceptance action must be taken by the Amherst Congregational Church at a subsequent annual Church meeting. (By request)

15. To transact any other business that may legally come before this meeting.

Given under our hands and seal, this 16th day of February, in the year of our Lord nineteen hundred and fifty-nine.

ALLEN D. HOWARD,
RAE COMERFORD,
MERIC G. ARNOLD,
Selectmen of Amherst.

REPORT OF HIGHWAY AGENT

Work on the Summer Maintenance Program included the replacements of seven culverts, setting 80 posts with reflective markers at Culverts and bridges, etc. Signs were posted in various sections of town. There was very little mud in the spring and a minimum of spot graveling was required.

During the summer some roads were spot graveled and the banks cut. Most of the brush cutting this year was accomplished with tractor mowing machines; about three-fourths of the total miles of our roads were mowed.

The money for Article Six was spent cutting banks on two bad corners on Walnut Hill Road at a cost of \$331.50. The remainder of the account was spent on the Lake Road cutting banks between Wilbur Parker's and Jimmy Young's at a cost of \$668.30.

The T.R.A. Program (\$9,799.78) included the widening of the Old Manchester Road by Gill's, graveling the Old Manchester Road, Carter's Road, spot graveling the New Boston Road, Old Cider Mill Road and Warren's Road. We were able to surface treat the preceding except for the north end of the Old Manchester Road. A sealer coat was also added to these roads in the fall.

The Oiling Program provided for the patching of all our black roads and the re-oiling of about fourteen miles of road. Our new grader was used extensively on the re-surfacing program.

The majority of our summer work centered around our new grader. The grading program was started April 12th and continued through the summer months. We were able to grade all our dirt roads several times each, cut banks, remove stones from the road beds and the banks, clean ditches and grade shoulders on our black roads.

The grader was able to maintain our dumps and we were able to cover the dump areas with new gravel.

The following are a few notes of interest: Your new grader will operate on about \$28.00 worth of fuel a month as compared to a monthly fuel of \$65.00 for the operation of the old grader. There were no breakdowns all summer and we were able to rent the machine several times. After the operating expenses were deducted, a total of \$407.50 was added to the grader fund. Increased revenue from this source is anticipated in the years to come.

RICHARD G. CROCKER,
Road Agent.

REPORT OF POLICE CHIEF

Arrests, including assault, neglect, Motor Vehicle violations and accidents	23
Fatality	1
Investigation — accidental shootings	2
Warnings — including D. E. Tags, Fire Ban, juvenile, taking youngsters home	107
Stolen property, sign damage	6
Attended Civil Defense meeting and Air Raid Test	2
Aid to various departments	21
Town Hall affairs requiring police	9
Dances and record hops at Baboosic Lake	34
Lost hunters	2
Complaints of various nature — disturbances, prowlers, bad checks, etc.	102
Traffic duty and accidents, lake area Sundays and holidays	228 hours
Memorial Day, Fourth of July, Labor Day, Hallowe'en	64 hours
Fire duty, including time spent with Fire Marshal's department	6 hours
This department has been called upon for assistance of many types during 1958.	

Checking homes and property while owners are away on vacation enables us to give better protection and we are on the lookout for unusual happenings.

Our department extends thanks to Lieut. Conti, Corporal McBain, State Trooper Trentini, Motor Vehicle Inspector Landry, Chief Rockwell and members of the Milford police department for their cooperation and fine assistance during 1958. Our traffic problems are increasing and will require more attention this year. We have been concerned with the juvenile problem on several occasions. We look to the parents and citizens to keep this at a minimum. There were more people enjoying the facilities of Baboosic Lake last summer

than ever before, next summer promises to equal this record.

The purchase of raincoats, a much needed item, is an anticipated expenditure of \$100. Also a higher budget is expected for 1959 because of increased patrol work.

In '59 — stay in line, observe all traffic rules and regulations thereby helping to cut the Terrible Traffic Toll. Thank you.

ALBERT H. JUNKINS,
Police Chief.

FIRE DEPARTMENT REPORT FOR 1958

In 1958 the Amherst Fire Department was called out 30 times of which 8 were still alarms and consisted of the following:

- 2 Building fires
- 2 Chimney fires
- 3 Auto and truck fires
- 3 Oil burner fires
- 7 Dump fires
- 5 Brush and grass fires
- 8 Miscellaneous fires

To report a fire in Amherst, call Milford 80 or tell the operator that you "want to report a fire in Amherst." For information or any other fire business, do not call 80. This number is for reporting fires only. For any other fire business, call or contact Fire Chief Gordon Bowler.

GORDON BOWLER,
Fire Chief.

FOREST FIRE WARDEN'S REPORT

During 1958, Amherst had five brush or grass fires. This is considerably less than the expectancy rate set by the state. Some of this fire record can be credited to a wet year. The most credit belongs right here in town, to the citizens of Amherst, for obeying the fire laws. Not one fire was for burning without a permit. The only time that burning out of doors is permitted without a permit is when the ground is covered with snow.

GORDON BOWLER,
Forest Fire Warden.

You Can Help Prevent Forest Fires

Twenty-five percent of all forest fires in New Hampshire are caused from careless debris burning — brush, paper, leaves, etc. Most of them are started without the required permit from the local forest fire warden. The cost of extinguishing these fires annually runs into large sums of money.

According to law, responsible parties must pay the cost of putting them out. In addition, violators may be subject to court prosecution with fines running as high as (\$200) two-hundred dollars.

In the interest of fire prevention why not eliminate burning at home? Use your town dump. It has been set up for your personal convenience. It provides a suitable place for the disposal of dangerous inflammable waste material and other useless items which accumulate around the home and local stores; brush, etc. cut on your property. Eliminate the hazard of burning yourself. It will be easier for you — personally and financially.

If, however, you do burn on your premises:

1. Secure a permit from your local forest fire warden — the law requires it.

2. Be sure to properly supervise your burning. Don't leave it.
3. Make certain your fire is DEAD OUT before leaving it.

Save yourself much possible difficulty.

Use your town dump.

Number of local fires, 5; number of acres burned, 3.45; number of permits issued, 263.

WINTHROP HANNAFORD,
District Fire Chief.
GORDON P. BOWLER,
Forest Fire Warden

SEXTON'S REPORT

After 25 years we have finally been able to make a good start on fixing up the Chestnut Hill Cemetery. It has been a mass of blueberry bushes, running hemlock, poplar, birches and holes. We have dug out these bushes about one third of the way in and put on new loam, fertilizer and seeds and rolled it down so it can be mowed with a lawnmower.

Out of the \$1515.46, the expense of the five cemeteries were as follows:

C. H. Hagar	\$258 00
R. Griffin	223 43
J. Hanlon	111 75
L. Hayward	123 75
A. Chandler	36 56
R. Hill	17 50
R. Hancock	12 50
E. Houck	4 38
G. Long	18 75
C. H. Hagar, truck and implements	483 75
H. Anderson	25 00
Cabinet Press	15 00
Rodney Woodman	15 50
O. Merrill, loam	70 00
Record book	2 25
Richard Crocker, gravel	30 00
Grass seed	20 17
Bliss, plumbing	12 00
Grave canvas	23 65
Grave irons	11 52

At this time (February 5) there is nothing to report from the Committee concerning the extension of Meadow View Cemetery or a new piece of land elsewhere for a new cemetery.

There were 18 burials; 5 local and 13 from out of town.

CLARENCE H. HAGAR,
Sexton.

AUDITORS' REPORT

We have examined the accounts of the following Town Officers: Selectmen, Town Clerk, Town Treasurer, Tax Collector, Road Agent, Trustees of Trust Funds, Treasurer of Library, Clerk of Police Court, and find them correct to the best of our knowledge and belief.

ORSON H. BRAGDON,
GEORGE H. HOWARD,
Town Auditors.

TREE COMMITTEE REPORT

The Summer of '58 was a wet one — the first in several years — and it definitely was a blessing to all trees in Amherst's sandy soil.

The Dutch Elm disease again took its toll. However, instead of increasing as in many nearby communities, it stayed about even — showing up in 25 elms — of which four were large. Our budget reflects directly the heavy cost of removal of these trees.

Our two sprayings, DORMANT in April and COVER in late May, are essential in our continued endeavor to control the Dutch Elm disease. We urge all residents who have had the two sprays each Spring, to continue them; and any who have not, to do it if at all possible. One diseased Elm can infect all others within a 1,000-foot radius.

Re-planting is the key to Amherst's Tree future. Sixteen trees, including the Christmas tree donated by Carl Doane with its moving financed by the Men's Club, were planted in 1958. We would like to see this number increased.

The Tree Committee welcomes any opportunity to assist private property owners on planting new trees or the care of old.

Respectfully submitted,

G. WINTHROP BROWN,

CREELEY S. BUCHANAN,

ROBERT W. SEAMANS, Chairman.

January 23, 1959

REPORT OF THE ADMINISTRATIVE OFFICIAL OF ZONING ORDINANCE AND BUILDING REGULATIONS

During the year of 1958, there were fifty-five applications for the erection or alteration of buildings and the erection of signs within the town covered by the Zoning Ordinance and Building Regulations on which permits were issued as follows:

Dwelling houses — erection	23
Dwelling houses — alteration	10
Garage alteration	2
Stable	1
Amusement building addition	1
Gift Shops	2
Work Shop	1
Cellar for evergreens	1
Boy Scout Camp	1
House trailer homes	2
Establish business	1
Sign erections	9

Five signs and establishment of one business was refused by the Administrator and permits were authorized by the Board of Zoning Adjustment on appeal.

RUFUS I. BROWN,
Administrative Official.

AMHERST TOWN LIBRARY

Librarian's Report

During the past year the Library has taken great steps in an effort to keep up with the increasing number of children and adults wishing to make use of its facilities. The total circulation for the year shows an increase of nearly 4000 over that of last year. This is indicative of the continued growth of our schools, plus a greater interest in reading, both in adults and children than heretofore.

To keep up with the demands made upon it, the Library has had new book shelves installed in both the children's room and the adult room. Re-arrangement and re-grouping of the children's books according to age and interest level has been accomplished. This has added greatly not only to the appearance of the rooms, but also to the effectiveness of its operation.

In an effort to increase the cooperation between the school and the Library, the Library is now open on Tuesday morning for the students only. This enables the bus students, in particular, to have more time in their selection of books. This new plan has proved very successful for both the pupils and the librarians.

The Library has now increased its reference material. Three complete sets of encyclopedias are now available, namely the 1958 World Book, 1952 Compton's, and a 1956 set of Encyclopedia Britannica. We are constantly encouraging the children to come in and work with them.

Due to the increasing cost of books, we have introduced the use of paper-backs, in the lighter fiction such as mysteries, westerns and adventure stories. In this way more worthwhile and lasting books may be able to be purchased. Many people have donated these books which has been most appreciated.

New books added to our collection this past year are classified as follows:

Adult fiction	132
Adult non-fiction	57
Juvenile fiction	94
Juvenile non-fiction	68
<hr/>	
Total number added	351

In addition to these, more than 500 books have been borrowed from the State Bookmobile. These books are of great value to us, as they help to supplement our own collection. Books of a specialized nature that our Library does not have, may be borrowed from the State Library upon request. More people should avail themselves of this privilege.

In April, Mrs. Janice Shethar was appointed assistant librarian to replace Mrs. Helen French who resigned.

I wish to acknowledge the gifts of money, books and magazines to the following people: Mrs. Frederick Mosher, Mrs. Carroll Chase, Mrs. Gladys Heckman, Mr. Cleaveland Campbell, Mr. Shirley Carr, Mrs. Robert Seamans, Mrs. Edwin Hall, Mr. and Mrs. Philip B. Holmes, a book in memory of Mrs. Margaret Murphy, Mrs. Catherine Kruger, Mrs. Theodora Lincoln, Miss Frances Dwight, Mr. William Wells, Mrs. Dorothy Davis, Mrs. Norwin S. Bean, Mr. William T. Weitzel, Christian Science Society of Milford, Mrs. Elizabeth Hall and David Smith.

A great deal of interest has been expressed in the colorful art displays shown at the library. They demonstrate the work being done by the students in our schools under the supervision of their art teacher, Mr. Parente.

Circulation figures for the year are as follows.

Adult fiction	4,555	Juvenile fiction	5,514
Adult non-fiction	1,138	Juvenile non-fiction	3,349
Magazines	1,024		<hr/>
	<hr/>		8,863
	6,717		
Grand Total	15,580		

I wish to express my appreciation to Mrs. Robert Seamans for her thoughtfulness in placing attractive flower arrangements in the Library during the year and especially during the holiday season.

In closing, I wish to thank the Board of Trustees for their helpfulness and willingness to cooperate with me at all times this past year.

The Library hours continue to be:

Tuesday A. M., 10:00 - 12:00 (School pupils)
 Tuesday P. M., 2:00 - 5:00
 Friday P. M., 2:00 - 5:00
 Friday evening 7:00 - 9:00

Respectfully submitted,

MARION U. NELSON

ANNUAL REPORT OF THE TRUSTEES OF THE AMHERST TOWN LIBRARY

Pertinent sections of the New Hampshire Revised Statutes Annotated (202:10 and 202:11) indicate that in general the responsibility of public library trustees are the management of the business and financial affairs of the library and determination of overall policies for its administration. They are required to make "an explicit report" to the town annually, of library receipts and expenditures "and of all the property of the town in their care and custody . . . with such recommendations in reference to the same as they may deem necessary for the town to consider."

This rendering of such a detailed report has not been done in recent years, and this legal responsibility has been called to the attention of public library trustees by the Law Librarian of the New Hampshire State Library.

In compliance therewith, we give our annual report of the trustees:—

Financial Report — The report of our treasurer on the general operating account and on the Mary B. Upham Fund is appended hereto.

Improvements to Building — Shelves have been placed along the three walls of the Children's Room and along the north wall of the Adults' Room and the shelves stained.

Contemplated Improvements — It is planned to replace the old roller shades with new ones; also to effect minor changes in the electric light wiring to replace wiring considered to be of questionable safety and efficiency.

Insurance — The fire insurance on the library building and contents is included in that placed by the Selectmen on other town property. \$10,000 Bodily Injury Liability insurance is carried by the library and the triennial renewal premium falls due May 16, 1959.

Gifts — The trustees acknowledge with thanks a gift from Mrs. Frederick W. Mosher of \$500.00, which has been turned over to the Trustees of Trust Funds, the income from which is to be credited to the library annually. This gift is in addition to a gift of \$603.04 made by Mrs. Mosher in November 1957.

PLANNING BOARD REPORT

At a citizen's request the Planning Board was asked to study our existing zoning regulations in respect to trailers and mobile homes. The suggestion was, that further remedial, permissive or restrictive local legislation be considered.

This controversial subject has become one of the major municipal problems within the State. State conferences and meetings with authorities from elsewhere in the country, and representatives of interested communities have been conducted in Concord. These discussions were directed toward the end of shaping improved enabling legislation controls regarding this problem. The areas of concern are the taxation, proper sanitation and location of trailers.

Locally, the Planning Board unanimously decided not to recommend any changes or amendments at this time.

The Committee has been involved with the consideration and study of Article 12, previous warrant, to see if the Town will vote to acquire a plot of land for recreational purposes such as baseball and similar sports. We concur that this is a worthy and desirable request. That further, there is an active and healthy program of participation existing that has every good chance of being a continuing one through the years.

The small area presently available for use permits facilities only for the youngest age group. Limited as it is, this area faces elimination with any future school expansion. Various parcels of property that appeared to lend themselves as suitable to location, availability, and a minimum of improvement expense, have been considered. None fulfill these requirements.

Meetings with the Water Precinct Commissioners, State Health Department Engineers, and others, were held. The practicality of leasing Village Precinct prop-

erty, and acquiring by purchase abutting property sufficient to provide a large and suitable area, was explored. Obstacles in this direction appear to eliminate this possibility.

The Planning Board feels this study should be continued but wishes to point out at this time that no area appears to be available that is central, reasonable or practical for this purpose.

Signed:

GEORGE E. HAMMOND, Jr.

Chairman

MERIC ARNOLD

AMHERST VILLAGE DISTRICT WARRANT

To the Inhabitants of the Town of Amherst in the
County of Hillsboro in said State, qualified
to vote in District Affairs:

You are hereby notified to meet at Town Hall in
said Amherst on Friday, the 13th day of March next,
at eight of the clock in the afternoon, to act upon the
following subjects:

1. To choose all necessary District Officers for the
year ensuing.

2. To raise such sums of money as may be nec-
essary to defray town charges for the ensuing year and
make appropriations of the same.

3. To change Article No. 24 to read as follows:

24. Any extension of the water system within the
District as shown on the original plan as revised De-
cember 7, 1951 and under which the system was com-
pleted on January 2, 1952, shall be made only in accord
with the following rules and regulations.

(a) Extensions or additions to existing mains shall
be applied for in writing to the District Commissioners
by a majority of the property owners abutting on the
proposed extension or addition.

(b) The cost of such extension or addition to the
system within the District shall be borne by the prop-
erty owners abutting such extension or addition and
shall be paid for by a surcharge against such abutters.
Such surcharge to be apportioned on a front foot basis
in such a manner as to amortize the cost of such addi-
tion or extension over a period not to exceed ten years.

(c) Specifications for any extension or addition
shall be determined by the District Commissioners.

(d) Extensions or additions to the system within

the District shall be made only under public highways accepted as such by the town, or the State of New Hampshire.

(e) Any extension of the water system beyond the bounds of the District shall depend upon the expansion of the District to include the area to be served by such extension. If the District is thus extended and extension of water system to serve the area thus annexed shall be made in accordance with items (a) (b) (c) and (d) of this article.

(f) Annexation of any area which lies outside the District boundaries shall be by favorable action on a warrant article petitioning for such annexation at a regular or duly authorized special meeting of the District, such a petition signed by a majority of the legally registered voters residing within the area to be thus annexed whose names appear on the Town of Amherst official checklist of voters.

(g) Any service connections to new or existing property shall be done in accordance with Articles 4, 5, 6 of these by-laws.

4. To transact any other business which may legally come before said meeting.

Given under our hands and seal, this 20th day of February, in the year of our Lord nineteen hundred and fifty-nine.

OTTO K. NEUGEBAUER,
CARL E. PETERSON,
Commissioners of Amherst Village District.

A true copy of Warrant — Attest:

OTTO K. NEUGEBAUER,
CARL E. PETERSON,
Commissioners of Amherst Village District.

AMHERST VILLAGE DISTRICT

The Village District has had a steady continual growth of subscribers since its inception; last year we added five, bringing the total number of water users to 158.

The water tank has been completely scraped on the inside and repainted, and a tell-tale has been added to make control of the pumping cycle more easily controlled. It is quite apparent from inspection that a regular scheduled painting and maintenance program must be maintained in the tower due to the icing conditions that occur in the winter.

It appears upon examining the records that one item in the by-laws has never been officially voted on. This article has been placed in the warrant so that appropriate action can be taken on it at this time.

The commissioners have bought a new type of water meter as replacement meters which are less costly to repair if damaged by freezing. These are proving very satisfactory.

The commissioners wish to take this opportunity to commend Mr. Marchildon for the excellent manner in which he serves the district. Both he and Mr. Kruger have done an outstanding job maintaining the district property in an efficient and economical manner.

CARL PETERSON,
HARRY MITIGUY,
OTTO NEUGEBAUER, Chairman.

When all is done, say not my day is o'er,
And that through night I seek a dimmer shore;
Say rather that my morn has just begun, —
I greet the dawn and not a setting sun.
When all is done.

Vital Statistics of a Town are one of its most important records, not merely for today, but for generations to come. If everyone would see to it that the records of their own families were fully and correctly filled out on Marriage, Birth and Death certificates, it might be of great help in making out the records of today.

I hereby certify that the foregoing returns are correct according to the best of my knowledge and belief.

CATHERINE A. KRUGER, Town Clerk.

Report of
Ways and Means Committee

WAYS AND MEANS COMMITTEE REPORT

Your Ways and Means Committee has considered each of the items in the Town and School District budgets and each Article in the warrants. In cases where it was considered necessary the representatives of various departments were consulted. It is believed that the following recommendations are as equitable as possible.

The Committee wishes to thank the Town and School Officers and Department Personnel for their ready help.

TOWN WARRANT

Article 1:

No comment is necessary.

Article 2:

We recommend approval of each item in the Town Budget except as noted, and offer the following comments on some of the items:

EXPENSES TOWN HALL AND OTHER TOWN BUILDINGS: We recommend approval. Expenditures for 1958 were about \$2790.

POLICE DEPARTMENT: Part of the requested \$400 increase will be non-recurring, namely \$100 for four raincoats. The balance is for covering increased patrolling, which has been done in the past but for which previous budget provided inadequate payment. We recommend approval.

CIVILIAN DEFENSE: \$150 of the \$200 increase sought will be non-recurring since it is expenditure to complete communications hook-up within the State-Town organization. The other \$50 is required to provide minimum organization set-up. It is felt that the Town should go this far since the State organization has been very helpful in our purchasing of communication equipment for the Police and Fire departments. We recommend approval.

WINTER MAINTENANCE: Expenditure on this item in 1958 was \$11,682.25. The amount over the budgeted \$6600 was paid from a surplus in the Town Funds. No such surplus exists now, there being a current deficit of about \$300. Although we had an expenditure of \$12,870.20, on this item, in 1956, it is not expected that the average over a period of time will reach these high figures. The \$9600 requested appears to be a reasonable amount which will help to avoid a major deficit if 1959 should also be a bad year. It reflects, also, an increase from \$4.00 to \$4.70 per hour paid for trucks on snow plowing. We recommend approval.

TOWN ROAD AID: The amount of this item is governed through apportioning of funds by the State which matches the Town's money seven to one. We recommend approval of the increase from \$1278.23 to \$1299.63.

LIBRARIES: A revision and lengthening of "Open-hours" has provided better service to students for reference work. The \$200 increase takes care of salary changes to fit the longer schedule and also provides enough to cover increased expenditures for fuel and light, as dictated by recent experience. We recommend approval.

TOWN POOR: There is some indication that the case load may not be as heavy as expected. We recognize, also, that a lower appropriated amount will not limit, necessarily, payments to truly deserving cases. We recommend that \$1,000 be raised and appropriated for this item.

CEMETERIES: Much volunteer help has made it possible to do a major job in renovating the somewhat neglected Chestnut Hill cemetery. Further such volunteer help is forthcoming to finish the job but, in order to take full advantage of it, certain paid machine work

must be done. The \$150 increase requested seems to be reasonable. We recommend approval.

Article 3 and 4:

We recomend approval.

Article 5:

We recommend that no money be raised or appropriated for this purpose.

Article 6:

We recommend approval. In a continuation of the long range plan for the improvement of black-top roads, as previously recommended by this Committee, more work is planned for the Baboosic road.

Article 7:

We recommend approval. It is planned that expenditures this year will be largely for renovation of the stage area including installation of a new curtain.

We believe that this should be the last of a series of special articles on the renovation and improvement of the Town Hall and recommend that the Selectmen determine a proper amount for annual maintenance and include this in regular budget under "Expenses Town Hall and other Town Buildings."

Article 8:

In view of the fact that 1960 is the year of Amherst's Bicentennial the doing of this work is in order. One cannot be a good citizen any more than he cannot be a good housekeeper if he doesn't take pride in preparing for visitors. We recommend approval but suggest that the painting part of the job be done as late in the season as possible. This will provide a better chance that the fence will be in good condition the following year.

Article 9:

We recommend approval.

Article 10:

Some of our fire-fighting equipment will have to be replaced in four to five years. It makes sense that we start to build a cushion against the impact of expenditure at that time. We recommend approval.

Article 11:

Use of a blade snowplow instead of the old, narrow, V-plow will cut down the number of trips necessary over any given road. This is important in the face of rising costs for truck hire. We recommend approval.

Article 12:

Voting upon the accepting of a new road, such as this, has not been done in Amherst for some years. Our consideration of the matter brought out some points upon which we enlarge as follows:

(a) Acceptance by the Town will entail regulation building and customary maintenance of a hard-top road. Since we do not have what would normally be Planning Board specifications requiring a definite amount of gravel base and provision for a certain width of road and radius of corner, we don't know, at this time, the extent of initial cost to the Town, but we feel sure that the Town would be paying for some work which should have been done before acceptance by the Town.

(b) In our questioning on how the Town can be sure that building construction meets Building Code standards, and thus produce property which will be a sound and fair addition to the Town's tax base, we find that there are no penalties for non-observance of building requirements. We cite this as a general condition and not with specific regard to the particular development covered in this article. Instances of such non-observance, however, have been pointed out by Town Officials.

We recommend disapproval of this article, not because of prejudice against this particular development,

but because there is need for establishing clear-cut regulations and codes by which the value of this and other developments can be determined before being accepted by the Town. By value we mean the extent to which a property can carry its fair share of the tax load in relation to what it costs the Town to service that property.

Since the recommended handling of this article is somewhat of a test case and since we do not want to place undue burden upon the citizens involved, we suggest that the Selectmen work out an equitable arrangement for snow plowing and some grader work, on the road in question, until the matter has been resolved.

Article 13:

We recommend approval but feel that this is only a stop-gap measure.

We recommend that the functions of the Planning Board, established at the 1958 Town Meeting, be defined to include the setting-up, and continued oversight, of regulations covering anything, related to Road and Building construction, which will affect the values of properties in the Town; such regulations to provide for specifications and penalties, for non-observance, where necessary.

Article 14:

No comment.

SCHOOL WARRANT

Articles 1 through 7:

No comment is necessary.

Article 8:

We recommend approval of the School Budget except as noted, and offer the following comments:

ADMINISTRATION: The increased costs for items under this heading total \$681.90 which is a 14% increase above last year. The \$90.00 increase on "Per capita tax" is due to greater number of students. The amounts of the other items are determined by the School Union and the larger amounts in this year's budget represent Amherst's share of the larger salaries and expenses voted by the Union this year.

TEACHERS' SALARIES: Part of the increase on this item is due to salary for necessary additional teacher. As to the balance of the increase we concur, with what we know to be the majority of people, in believing that good teachers merit good salaries; we believe that we have many good teachers in the Amherst school system. We cannot believe, however, than an indiscriminate \$200 raise in the pay scale base and the further application of the automatic 4% service increase is in the interest of either the good teachers or the Amherst taxpayers at this time.

We recognize the value of the School Board's program of interviewing new teachers, as started last year, and urge that this be supplemented, as early as possible, with a merit rating system. Such a system should be developed with the help of the teachers and others in the profession; its operation, however, should be the responsibility of the School Board with some help from the administrative personnel of the Union. We believe that only on the basis of such a system can major pay raises be justified.

On this item we recommend that the raise in pay scale base be limited to \$50.00.

BOOKS AND INSTRUCTIONAL AIDS: The increase of \$305.00 is caused by increase in number of students and by a rise from \$4.00 to \$4.50 in per pupil cost.

We recommend approval but raise the question as to how much effort is made to keep costs down by co-operative buying and by re-conditioning of used books.

SCHOLARS' SUPPLIES: The increase of \$335.00 is due to increased number of students and to rise from \$5.00 to \$5.50 in per pupil cost. We recommend approval, with the same question on co-operative buying as above.

SUPPLIES AND OTHER INSTRUCTIONAL EXPENSES: \$100.00 increase to cover testing program and to provide \$25.00 toward pay raise for speech teacher. We recommend approval.

SALARIES OF CUSTODIANS: \$100.00 increase; will be handling one extra room. We recommend approval.

WATER, LIGHT, AND JANITOR SUPPLIES: \$200 increase in lighting costs due to recent higher rates. We recommend approval.

REPAIRS AND REPLACEMENTS: Increase consists of: \$225.00 for installation of panic hardware on doors in Brick School, \$50.00 increase on plumbing repair item, \$50.00 increase on heating plant repair item, and \$75.00 for rubbish collection, an item for which provision has not been made previously. We recommend approval.

HEALTH SUPERVISION: \$44.20 increase in item is Amherst's share of increase in salary to Union nurse. We recommend approval.

TRANSPORTATION: Part of the \$1750.00 increase is due to need for extra bus for high school students and part for cited increase in operating costs. We cannot quarrel too much with the figures presented to us and recommend approval. We would like to point out, however, that this is a major cost item in our budget and that our total expenditure is greater than that of surrounding towns even though our cost per mile may be lower. There is a strong possibility that some overall saving might be made on transportation under a

Co-operative District set-up. This should be kept in mind when considering other articles in this warrant.

TUITION: A reflection of increased student load. We recommend approval.

RETIREMENT: Total increase in this item will be governed by action taken on "Teachers' Salaries" above; Social Security and other retirement benefits are a percentage of salaries.

INSURANCE: As recommended by this Committee last year, we urge that substantial savings be made on this item through placing of insurance with agents of one mutual insurance company.

ADDITIONS AND IMPROVEMENTS TO BUILDINGS: The major item this year is the building of a new fence around the Clark School area; this will cost \$600.00 and the \$300.00 increase applies to this. The other \$600.00 in the item is for regular painting schedule of three rooms per year. We recommend approval.

NEW EQUIPMENT: Expenditure will be for outfitting the extra classroom for 1959-1960 classes. We recommend approval.

Article 9:

We recommend approval.

Article 10:

We recommend that no money be raised or appropriated for this purpose this year. Although the present tables may be old they are rugged enough to stand the abuse encountered. The oilcloth coverings, applied last year, made a great improvement in the appearance and cleanliness of the tops.

Article 11:

We recommend approval.

Article 12:

We recommend approval.

Although the Town Budget was held pretty much to the same total as last year, the School Budget will be increased by close to \$18,000.00 (if recommendations of Ways and Means Committee are accepted; by more if they are not). The total for Town and School will be about 8% more than the total for the year 1958.

Your Committee was faced with the continuing problem of considering items calling for increased or new expenditures, each worthy in its own right, but all adding up to an amount beyond that which can be supported by the normal annual gain of less than 5% in the tax base. Under such conditions, there can only be a corresponding increase in the Tax Rate.

We recommend to your attention, again, the special comments at the end of the Ways and Means Committee Report in the Town Report of 1957. Recent analysis of school situation shows that the trend, indicated in the chart of that report, continues well into the 1960's.

Basically there are three areas in which we can work as citizens to help keep our financial affairs in order. In the first two, as follows, we can exercise some measure of control through the voicing and following of recommendations as they apply to various parts of the Budget items in the first part of this report. In the third area it is going to take the sound and thoughtful thinking of all of us to make progress:

(a) **Tax Base.** This is the thing, and the only thing, that governs the Town's "ability to pay." Once a fair price tag has been placed on every piece of property the only thing, with one exception, which can increase the tax base is the addition of new property. The one exception, of course, is the nominal dollar value increase in property value due to creeping inflation; as long as such conditions are with us they must be recognized and adjustments made.

Our controls in this area are to make sure that any

added property meets the Building and Zoning codes and thus has the value intended. The Planning Board can help by promoting the location, in Amherst, of suitable industrial or commercial enterprises. The Selectmen, as assessors, can make sure that assessed values of property reflect a fair market value at all times.

(b) **Full Value.** Do we get what we pay for? This is the kind of thing we are thinking about when we raise questions on co-operative buying, reconditioning of books, etc. It is why we recommend the purchase of equipment which will save labor and repair costs. It is what we are getting at when we ask for merit rating systems by which to measure the value of what we pay for in the teaching staff. This is the area in which decisions have to be made as to whether an item is a frill wanted by a few people or something that is a necessity to the majority of citizens.

(c) **Extra-Community Planning.** A thoughtful look at the present day problems of a New Hampshire town, such as Amherst, will show that even perfect performance on (a) and (b) above will not be the answer to mounting financial difficulties. Although it is easy to say that such things as the adoption, by the State, of a broad-based tax or the elimination of a costly, out-of-date form of County government would go a long way toward solving our problems, we must recognize that there is strong political pressure against such moves. They will be a long time coming.

However, ways are developing which may offer some relief. Much progress has been made, in the State Department of Education, on concrete help that can be offered to communities looking toward consolidation of School districts. Such consolidations bring greater State Aid for building and, no doubt, will receive a larger proportion of other aid whenever that may become available. Savings can usually be made, also, on transportation under such a set-up.

If this kind of co-operative effort can work out for

School Districts, as it seems to be doing for five communities in the State at the present time, it may be reasonable to believe that something could be worked out for consolidating other Town activities under a common administrative organization. We believe that more might be accomplished along these lines than by waiting for political moves by people who do not have the same immediate interest in Amherst that we have.

School closes at 12:15 P. M. — November 25

May 30 — Memorial Day

Schools must operate for a certain number of days. Therefore, closing for bad weather, etc., necessitates adding days at the end to make up for those lost. Schools will close on the 185 counted day since the Convention, Institutes and Workshops are counted as days in school.

WARRANT FOR ANNUAL SCHOOL MEETING

The State of New Hampshire

To the Inhabitants of the School District in the Town of Amherst qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the sixth day of March 1959, at eight o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appro-

priation, which balance is to be raised by taxes by the town.

9. To see if the district will raise and appropriate the sum of \$1000.00 as a deficiency appropriation payable on or before June 1, 1959 to compensate for increased tuition costs.

10. To see if the district will raise and appropriate the sum of \$321.49 to purchase new folding tables for the school lunchroom.

11. To see if the district will vote to authorize the school board to make application for and to accept, on behalf of the district, any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire or from any other source.

12. To see if the district will appoint a committee to study a cooperative school district with other districts and to raise and appropriate the sum of \$200.00 for their use in preparing preliminary plans.

13. To see if the district will vote to petition the state board of education to become part of a cooperative school district of grades one through twelve, said cooperative school district to include the present school districts of Amherst, and Milford, and may include also one or more of the present school districts of Mont Vernon and/or Wilton and/or Lyndeboro and/or Brookline if said districts shall also vote at their annual 1959 school meetings to so petition the state board of education and shall be approved for inclusion by said board in accordance with Revised Statutes Annotated of New Hampshire, Chapter 195 and to elect two representatives from the School District of Amherst, New Hampshire, to serve on an interim committee with like representatives from the other participating district or dis-

tricts to prepare a financial budget for the operation of the proposed cooperative school district and to include in the organization warrant for such cooperative school district an article calling for an appropriation for the first year and to arrange for such other items of business as need to be acted upon at the organization meeting.

14. To transact any other business which may legally come before said meeting.

Given under our hands at said Amherst this 13th day of February 1959.

CURTIS R. WORTHEN,
JAMES R. WALKER,
PRENTICE SHETHAR, Jr.
School Board.

JAMES WALKER,
School Board.

ANNUAL NARRATIVE REPORT OF THE SCHOOL BOARD

The number of children coming in to our school system has increased this year and so have the costs of operation. You will note in reviewing the School Budget on the previous pages that there is an increase in many items which must be raised and appropriated to run the school system in 1959-60.

As usual, the largest sum is the teachers' salaries, the payment of which is based on a formula set up for the year 1958-59 and provided for increases on a percentage basis depending upon the training and years of service. The sum of \$3,500 was used as a base of 100% for the first year for those with a Bachelor's Degree with an increase of 4% a year up to a maximum of seven years. Base rates for those with a Master's Degree were \$3,780 and those with less than a Bachelor's Degree \$3,220. This year, after making a survey of the surrounding towns of approximately the same size in the New England states, we find that our starting salary is still low and recommend that the base be raised from the present \$3,500 to \$3,700. This, of course, means a \$200 increase across the board plus 4% for those teachers who have not completed seven years of service.

Following the recommendation of the Ways and Means Committee last year, we have made a study of a merit system for teachers' compensation but have not completed the final framework for presentation. This will probably be done this fall and it is hoped that the pay scale for 1960-61 will be based on this system. As the state has no formal plan to recommend, we have received considerable help from school boards and superintendents in several neighboring towns.

Due to the increase in the number of elementary students, we find that it will be necessary to use the

basement room in the Clark School in order to have sufficient classroom space. The plan of the Growth Committee and the School Board is to use this basement room for one year and then add two more rooms to the existing building so that the substandard basement room is only used as a temporary room prior to building. Following through on this plan, two new rooms will be added to the most recent addition of the Clark School for the school year 1960-61. The extremely crowded condition in our present second grade is fully recognized and appreciated and it is planned that the two-room addition programmed for 1960-61 will relieve this situation.

In line with the above increase in the number of classrooms, it will be necessary to hire one more teacher to take care of the room in the basement of the Clark School. At this point, the Board feels that the job of principal should become one of full-time administrative principal rather than that of part-time teaching principal which it has been in the past. This would mean that our faculty would consist of a principal and twelve teachers.

The problem of transportation becomes even more complex as our population grows and this is the reason for an increase in the transportation budget. One interesting fact along this line is that the number of students going to Milford High School will increase from 113 to 132 which will necessitate sending another bus to Milford. The increase in the number of students going to Milford, as well as an increase in tuition from \$310 to \$320, is also reflected in the Budget as a major item.

The growth of the school population in the Souhegan Valley has become such a serious problem that there now is a committee from the towns of Wilton, Milford, Amherst, and Mont Vernon studying the possibility of consolidation. As this group has been study-

ing the situation a relatively short time, it will be necessary to recess our district meeting until a later date so that they may study the situation further and bring in a final report for the town's consideration at that time.

This year we feel quite certain we will end up with a deficiency of approximately \$1,000 due to an increase in tuition pupils. In previous years, we have always encountered a decrease through drop outs. In this year's Budget, we have allowed a margin of three extra tuition students, which the School Board considers to be a minimum figure.

The School Board wants to express its appreciation for the interested work of our teachers, school nurse, art and music supervisors, and the helping teacher, Miss Connolly, and Superintendent Bowley in the field of education. They are a real help in giving the Board professional advice.

We trust that you will give the needs and problems of the public school serious consideration in the light of today's educational requirements and request your co-operation in meeting the proposed budget.

Respectfully submitted,
CURTIS R. WORTHEN, Chairman
PRENTICE SHETHAR, Jr.
JAMES R. WALKER, Secretary

ADMINISTRATION

I herewith present my twentieth annual report, consisting of this discussion together with other reports printed herewith.

INSTRUCTION

Changes

Mr. John Groves — replaced Mr. DeLacey as Principal and teacher of Mathematics, grades 7 and 8.

Miss Cynthia Martin — replaced Mrs. Wheeler in grade 6.

Mr. John Karakostas — replaced Mrs. Carpenter in Social Studies and Science, grades 7 and 8.

Salaries

The average salary of classroom teachers in New Hampshire follows:

	1958-59	1957-58
Elementary	3,981	3,721
Secondary	4,418	4,156
All	4,151	3,888

About 6.8 percent increase.

Since we are competitive with neighbors, consider:

		1958-59	1957-58	1956-57
National Average	N. H. was lower by	624	630	600
Massachusetts	N. H. was lower by	799	760	705
Rhode Island	N. H. was lower by	774	885	905
Connecticut	N. H. was lower by	1199	1060	1030
New York	N. H. was lower by	2049	1797	1930
Vermont	N. H. was higher by	176	290	320
Maine	N. H. was higher by	326	490	595

The differential between our state and the two last states is rapidly closing and the differential in four of the other states is so much higher that it is almost impossible to recruit teachers from Maine or Vermont.

A comparison of teachers with labor or professions is constantly made. Labor works approximately 40

hours per week for 50 weeks or 2,000 hours per year. Some teachers testify to 48 hours for 40 weeks or 1920 hours per year. Surely the professions, teaching is considered a profession because post-secondary professional training is a pre-requisite to employment, would work as many hours as labor. Therefore, some agreement should be possible as to what percent of labor or profession yearly time the teacher is employed. The claims range from 50 to 85 percent. If we chose an arbitrary figure of 70 percent, with an average salary of \$6,000 for skilled labor and \$8,000 for professions, thus we justify an average salary of \$4,200-\$5,600. Choosing a higher percentage, and many would argue for a much higher one, the average salary of classroom teachers would increase. To my mind, these averages have not yet been reached.

The whole purpose of this discussion is to plead for proper recognition of your teachers — a basic necessity in these days of many miracles — before the levelling off of fiscal matter takes place, leaving inequities unadjusted. We need money to recruit the best candidates to go into teaching and must pay them well to keep them as teachers.

COSTS

To keep you aware of our costs as compared with others, I present the following:

	Total cost per Elem. Pupil	Total cost per High School Pupil
Amherst	\$228 30	
Brookline	172 16	
Hollis	207 58	\$321 14
Milford	212 89	310 31
Mont Vernon	176 75	
Bedford	241 86	
Merrimack	220 49	265 68
Nashua	244 60	388 62

New Boston	213 24	411 33
Wilton	258 94	299 26

These costs do not include transportation and capital outlays and are for 1956-57, the last tabulation available. Five other districts adjacent to this Union are included to show what their financial problem is as well as those of this Union. If later figures were available, the probability is that the same comparison would hold as illustrated above. The average for all pupils in N. H. in 1956-57 was \$235.04 for Elementary and \$350.32 for High School.

SOME OBSERVATIONS

"That scholars will not improve under the best of teachers unless they themselves study or are made to study. The teacher can direct, but the scholar must learn." Such is the quote from a town report of a hundred years ago. Is it none-the-less true today?

President Eisenhower in a recent statement speaks in terms of education as a critical area and needing "goals or standards." We look with interest for a development of this idea. Would it be appropriate in America or is it too Russian for our thinking? Does it mean that everyone must take the same work? Dr. Conant has just published his report of a two year study of American high schools. What he has to say concerns all of us. In the first place he would eliminate the small high school and develop larger area comprehensive schools. He would require certain basic courses of all, place pupils in subject sections according to their ability, have vocational courses for the non-college students, encourage the top 15 percent to take more challenging courses, and give special attention to the highly gifted 3 percent and to pupils of low reading ability. In brief, these are his recommendations.

I make these observations because I think the impact of these opinions will be felt throughout the educational

world in the next few years at least. We need to study them carefully.

NEEDS

The need of another teacher and to release the Principal for more administrative work is apparent as we approach the coming year. The proposal is to utilize the basement room at the Clark School and use the small room at the Brick School for another teacher in the junior high grades. This will require very little more capital outlay than is needed to provide more desk and chairs for the enlarged enrollment anyhow.

APPRECIATION

The writer is very grateful to all the School Boards, Teachers, Parents, Pupils and other associates for their contributions to another successful school year.

HAROLD C. BOWLEY,
January 29, 1959 Superintendent of Schools.

OUR HELPING TEACHER

In 1954 the first Helping Teacher's report was published. The program was then in the process of development and its main phases were discussed.

Now, after five years, the role of Helping Teacher seems to have crystalized to a considerable degree. The basic purpose will continue to be the same — to help. Since the sole aim of the school is to educate our children the role of Helping Teacher must be that of help to all concerned with this task. The following is a summary of many of the activities at present connected with this position.

Work with and for the Teachers

Class visitations whenever possible average one a week for each teacher. During these visits the teacher's needs are noted and problems considered. Conferences are arranged if the teacher so desires.

Individual and group conferences are concerned with scheduling, daily and long-range plans, curriculum development, teaching techniques, pupil problems, grouping, promotions, special programs for retarded and gifted, educational materials, etc. Also through individual conferences, progress reports designed to keep the curriculum coordinated as to subject matter, time allotment, and materials, are made twice a year.

The Joplin Plan for better grouping and reading now in effect in four schools requires continued evaluation and consideration.

The Helping Teacher's Bulletin, written each month, is intended to offer helpful suggestions, and to share ideas and useful information.

Group testing. We have a regular testing program from pre-school through Grade 12. Reading readiness tests are given in August to the in-coming first graders. The results are evaluated and the children grouped according to their needs. Other group tests are reading

and mental maturity in Grade One, reading in Grade Two, and by alternation reading, mental maturity, arithmetic and study skills in Grades Three through Nine. A yearly program of reading and language testing is conducted in Grades 10 and 12. Much time is spent in evaluating the tests, interpreting the results and making them available to the teachers. A comparison is made with the results on a Union-wide and on a National basis.

Illustrated talks on various countries and regions of the world are given whenever requested by the teachers. These serve to enrich the social studies program.

Help is given in the selection and use of educational and professional books and materials.

Much work is done with and through the Principals who, without exception, are very cooperative.

Work With Pupils

Pupils are tested individually when it seems necessary to have additional understanding of their particular needs, or when previous records are incomplete. Upon occasion special help is given an individual or a group. This might be a group activity, remedial work, or even helping a left-handed pupil to write.

Conferences are held with pupils who might be having problems concerning work or behavior.

Clinics and first grade registration in the several towns provide opportunities for help.

Work With Parents

Many contacts with parents are possible through the reading readiness program. Parents are present when the children take the tests and desire conferences when the results are made known.

Children having difficulty in making adjustments to any of the many phases of school life are referred to the Helping Teacher by the parent. Contact with the parent must be maintained as long as the problem exists.

Miscellaneous Activities

Planning and organizing workshops, extension courses and other in-service training.

Collecting and distributing educational and professional materials.

Serving on the Steering Commission — a local teachers organization.

Attending school board meetings — Milford regularly, others upon invitation.

Speaking at P. T. A. and other meetings.

Devising tests for certain subject units, but particularly for reading readiness to suit our own needs.

Activities outside the Union would include attendance at Helping Teachers and other educational meetings, conferences at the State Department of Education for the development of a state-wide testing program, as a speaker or consultant at workshops or study groups.

Cooperation on the part of all those directly or indirectly associated with the above program has been responsible for any measure of its success. And so to the Parents, Teachers, Principals, Members of the School Boards, and Superintendent who have helped me to help our children I am very grateful.

Respectfully,

MABEL I. CONNOLLY,
Helping Teacher.

PRINCIPAL'S REPORT

To the School Board, Superintendent of Schools, and citizens of Amherst:

To you I present my first annual report of the Elementary Schools of Amherst.

School opened Wednesday, September third, 1958, with an enrollment of 357, which was an increase of fifteen over last year's opening day. There are twelve teachers with an average of just under thirty pupils per classroom. The first four grades are in the Clark School. The fifth and sixth grades occupy the lower floor of the Brick School, while the seventh and eighth grades work under a departmentalized system on the upper floor of the Brick School. Next year we expect we will have to use the extra room at the Clark School, which is located downstairs in the wooden building. The Annex is used by the bus students as a depot, and during the day it is used for activities such as singing, music, films, and club meetings.

Our reading program at the Clark School includes the use of the tachistoscope on a three-day week basis, and it is hoped that soon we will be able to schedule its use at the Clark School five days a week. The Joplin Plan of reading is used at the Brick School. It has proven very successful for grades five through eight. The tachistoscope has been used two days a week at the Brick School in conjunction with the reading program.

Miss Wheeler teaches singing in each of the grades once a week, and in the junior high she has a girls' glee club.

Mr. Progris, our teacher of musical instruments, works with grades four through eight on Tuesday mornings, and in the afternoon of that day he teaches group orchestration.

Through the efforts of the P.T.A., many worthwhile projects and services are undertaken. These include

helping with the hot lunch program, dental care and financial assistance, the music program, and interest in the recreational facilities and equipment. Such activities show a great community spirit. Through such organizations better schools and community relations are established.

I would like to thank the School Board, Mr. Bowley, the Superintendent, Miss Connolly, the Helping Teacher, the teachers, Mrs. Gill, the nurse, and Mr. Bowler, the janitor for their cooperation in working so hard to give the children of Amherst the kind of education which is so necessary in this age of spaceships, electronics, and atoms. I want to express my appreciation to all of them, for without their cooperation and hard work, my job as teacher-principal would be made much more difficult.

JOHN GROVES,
Principal.

SYNOPSIS OF AMHERST SCHOOL MEETING

March 7, 1958

Meeting was called to order by Creeley S. Buchanan, Moderator, at 8:00 P. M. Rev. Frank W. Weiskel offered prayer.

The Moderator asked if there were no objections he would dispense with the reading of the warrant. No objections.

Article 1. Creeley S. Buchanan was unanimously elected Moderator for the coming year.

Article 2. Charlotte M. Dreyer was unanimously elected School Clerk for the ensuing year.

Article 3. James R. Walker was unanimously elected member of School Board for three years.

Article 4. Charlotte M. Dreyer was unanimously elected School Treasurer for the ensuing year.

Article 5. Dorothy Davis moved this article be passed — to take it up under School Budget. So moved.

Article 6. Prentice Shethar moved this article be passed because there were no oral reports and to accept reports as printed in the Town Report. Carried.

Article 7. George H. Howard and Orson H. Bragdon were unanimously elected to serve as Auditors for the School District.

Article 8. Dorothy J. Davis gave a detailed explanation of each item on the budget from 1 to 4 inclusive. Prentice Shethar explained items from 5 to 13 inclusive. Curtis Worthen itemized and explained the items from 14 to 26 inclusive.

John Morison, of the Ways and Means Committee, recommended the School District place all their insurance with a Mutual Insurance Company this year. Not carried.

Amendment by Lawrence Hall to accept the present form of handling the insurance this year and to be studied by the School Board for future years. Carried.

Richard Smith inquired in regard to item 17, Tuition. The fact that payments were made to school districts other than Milford. Mr. Harold Bowley explained these payments were in connection with State Wards who had previously lived in the Amherst School District.

Richard Smith asked to have item 22, payments to Richard Crocker and Dorothy Davis, clarified. Dorothy Davis explained that the Richard Crocker payment was for the improvements to the school yard, and the payment by Dorothy Davis of \$1,000 was for the new roof.

Moved that the District raise and appropriate \$134,770.92 for the support of schools, for the salaries of School District officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town. Carried.

Article 9. Prentice Shethar moved that the District authorize the School Board to negotiate an exclusive contract with Milford, to take our tuition pupils for a five year period at the rates charged by Milford within the limits permitted by law. Carried.

Article 10. John Morison, of the Ways and Means Committee, recommended the hiring of a full-time teacher be deferred until next year. Several citizens spoke for and against this Article. Dorothy Davis, Curtis Worthen, and Prentice Shethar agreed with the recommendation, they feel the present teaching staff is adequate at the present time.

Mrs. Catherine Kruger requested the voting be done by ballot.

Louis Heaton, Otto Neugebauer, and Vincent Brine

were appointed to check voters' names off the check-list as voters deposited votes in the ballot box.

Tenney Clough, Dwight Richardson, and Arnold Wight were appointed as tellers.

Henry Carter, Jr., and Harold Eastman were appointed to distribute ballots.

Meeting recessed a few minutes for the completion of voting.

The result of the voting was as follows:

Total number of votes cast	132
In favor of recommendation	71
Opposed to recommendation	61
Carried.	

Article 11. No new business.

A rising vote of thanks and a hearty applause was given Dorothy Davis for her seven years of service on the School Board.

Moved to adjourn 11:10 p. m.

CHARLOTTE DREYER,
School Clerk.

SCHOOL POPULATION COMMITTEE REPORT

This year's elementary school census of 367 for the 1959-60 classes is slightly greater than the projected capacity of our present plant. However, it is not so much greater than the planned capacity to require additional space for the next year.

The projection would indicate that consideration for more space should be given for the following year, 1960-61.

However, there is at the moment considerable interest in the possibility of consolidating with Milford and several other towns. If this were to come about the proposition would produce a Junior High School, therefore leaving only six grades in town. This of course would relieve the pressure on our facilities in town.

It is also conceivable that this six grade split might rearrange the disposition of the lower grade population with some of the children from this district going to schools nearer their homes and children from other districts attending our schools. Obviously this would have to be studied closely and thoroughly.

The direction in which we go in the next year with regard to our high school will be subject to the decision of the voters in the several towns that might be involved. The action taken cannot be predicted, therefore it is the opinion of this committee to make do with our present structures until the situation is clarified. It is apparent that some definite action must be taken if we are not to create a serious problem and it is the suggestion of this committee that the Amherst School District enter into the study of this consolidation.

To summarize, we recommend hiring one more teacher, and using the basement room next year. We recommend studying the possible consolidation with Milford, and making do with our present plant until a definite conclusion has been reached. At that time a

sound decision can be made as to the requirements we must satisfy.

LAURA PRINCE,
LOUIS B. HEATON,
ROBERT CURRIER,
ROLAND FRASER,
OTTO NEUGEBAUER, Chairman.
